### THE LOOK Moorish Inspired

**I LOVE THIS LOOK** because it's simple, yet complete. Taking a cue from classic Moorish patterns, this ensemble is beautifully modern and texturally ornate all at the same time.

**HOW TO RECREATE THIS LOOK** Don't be afraid to mix-and-match your foundational elements with a little whimsy. Modern and traditional designs can live happily together as long as there's harmony in theming, colour and scale. Remember that a complete living room starts with the perfect sofa, comes together with the right accessories, and ends with you!

### THE LOOK Sophisticated Surroundings

**I LOVE THIS LOOK** because is not about defining your style, but rather surrounding yourself with furnishings, colours, accents and art that bring you pleasure.

**HOW TO RECREATE THIS LOOK** Create this look by carefully choosing your furnishings and only using patterns on pillows and other decorative accents. Allow the details in the antique-style furnishings to speak for themselves by limiting your colour scheme to shades of grey and cream mixed with luxurious stone, glass and dark wood accents. Accessorize the vase on the side table by filling it with flowering branches or tall white orchids.
