ON REPEAT This gutsy, all-out paisley bedroom is an exercise in scale. Building on the concept of more is more, the bedding, headboard and walls are covered in the signature print in varying proportions. The key to making it work is using relatively neutral or understated colourways to keep the look from feeling too loud, here, the greys, browns and reds are earthy and calming. Minimalist furnishings and accessories don't detract from the overall effect, and the decidedly mod lamp provides just the right dash of contrast. **Table, stool, Elte; lamp, South Hill Home; clock, Decorium; small brass dish, Cynthia Findlay Antiques; headboard, Decor-Rest; headboard fabric, Kraver; Euro sham, pillowcase, coverlet, Les Indiennes; wallpaper by Schumacher, Bilbrough & Co.**
